

Rijdam

Hardfacing
services and
trading

Improving industry

Rijdam can provide hardfacing services with Tungsten, Nickel, Cobalt and other alloys, provides wear resistant castings and welding material, welding wires, rods and electrodes and almost all tools for every workshop!

HOW CAN WE HELP YOU

Increase durability of your machine parts

- Save money and maintenance time
- Hardfaced by Autogene welding, lasercladding, flame-spraying, wire-spraying, PTA, MIG, TIG or any other suitable style
- Tungsten, Cobalt, Nickel and other alloys to your preference

We supply (wear-resistant) consumables

- Wear resistant Alloys
- Powders, plain rods electrodes
- Castings, as cast or finished
- Tungsten (carbides), Cobalt, Nickel and other alloys to your preference
- All welding materials

We supply tools and machines for every use

- Tools for every day use for every workshop or plan
- Pneumatic Tools and compressors
- Autogene cutting and welding tools
- Welding machines
- Spot welding machines

Our brands

TECHNOGENIA 

- Lasercladding, autogene welding service
- Technosphere, Tech nodur, Technolase
- Unique tungsten carbide formula, masters of wear resistance

- Spot welding machines
- Spot welding tools and accessories
- Spot welding consumables

- Autogene cutting and welding tools
- A- quality heavy and light duty
- Torches, regulators, tips

Atlas Copco

- Compressors and pneumatic tools
- Top of the notch quality
- Extremely ergonomical and efficient

GeKa

- Certified quality welding materials
- Very competitive prices
- Massive wire, filled wire, rods, electrodes and welding machines

GEDORE 

- German quality tools for every industry
- Very competitive prices
- Tools for life

Experience our expertise

Get quality products

- We value quality far over quantity
- We always try to find the best solution for your specific demand
- Get the best quality for the best value!

Get more efficient

- Decrease your maintenance time
- Increase productive hours
- Lower employee's workload

Increase durability

- Increase durability of your machine part
- Increase affective hours of your personnel
- Decrease environmental impact
